

ANDECHSER NATUR

The ANDECHSER NATUR organic Schichtkaese, with 20% FDM in Bioland quality is characterized by its tartish taste, as well as its visible layers which develop from the scooping of the cheese into the cheese forms. For baking enthusiasts this is a first-choice ingredient, but it is also popular for dips and as bread spread.

ANDECHSER NATUR Organic handmade Schichtkaese cheese 20% 500g
Handmade organic Schichtkaese* with 20% FDM. *of controlled organic farming

- ✓ wonderfully creamy
- ✓ traditional handmade specialty
- ✓ produced with microbial lab

Curd cheese is a special cheese where the cheese jelly is filled into cheese forms by hand and where the whey can easily drain. After about 12 hours the layers of the scooping are recognizable. Only a few dairies still produce curd cheese this way by themselves. Such a cream cheese dairy is Schefflenz in Baden-Württemberg; here it is produced according to our recipe and with extraordinarily high-quality craftsmanship from the milk of our northernmost organic farmers.
